

Memory Foam Topper

Memory Foam Mattress Topper

A memory foam mattress topper is different from a memory foam mattress. No other sleep surface adjusts to your body weight and shape like a memory foam mattress. That's why many people are buying memory foam mattress in the first place. But what if you already own an expensive traditional mattress and thus do not want to discard it? Well, you do not need to purchase a brand new memory foam mattress and the better option is to add a memory foam topper and put it on your existing mattress.

While a brand new memory foam mattress can easily cost you over \$500, you can save about \$300 by buying a memory foam pad instead.
